Conclusion Author Bio Publisher Introduction One of the main reasons why I decided to write this book is because while doing research on heart ailments and natural ways in which to keep healthy, I found out some terrible statistics, which are not going to be told to you by your friendly neighborhood cardiologist. Did you know that about 24.1 million people in the USA, alone suffer from heart disease? I thought that that was a terrible number, till I found that the statistics of Asian countries like India [60 million!] and China statistics...
