Are you striving to establish a more creative and imaginative classroom? Are you interested in: * the generosity of creativity; * creative conjecture; * being an advocate for creativity; * welcoming the unexpected, * the unpredictable and the unconventional; * taking risks; * learning which leads to new or original thinking which is of value? If so, this completely updated new edition of a classic text will show you how to achieve these ideals. In this second edition the authors are drawn from six universities which between them produce some of the best education research internationally, and some of the best teacher education. The authors also come from leading national and international organisations such as the National Gallery in London and the Geographical Association. Creativity for the Primary Curriculum is a core text for both training and practicing Primary teachers who wish to maintain...
