Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.The Common Core of Data (CCD) is an annual collection of public elementary and secondary education data by the National Center for Education Statistics (NCES) in the Institute of Education Sciences of the U.S. Department of Education. The U.S. Census Bureau conducts the data collection for the finance surveys on behalf of NCES. State education agencies (SEAs) report the finance data through an online data collection site. SEAs report student membership data through the U.S. Department of Education s ED Facts data collection system. The purpose of this report is to introduce new data through the presentation of tables containing descriptive information; therefore, the selected findings chosen for this report demonstrate the range of information available when using the National Public Education Financial Survey (NPEFS) component of CCD. The selected findings do not represent a complete review of all observed differences in the data and are not meant to emphasize any particular issue. This report presents findings on public education revenues and expenditures using fiscal year 2011 (FY 11) data from the preliminary (version 1a) NPEFS file of the CCD survey system. Programs covered in NPEFS include regular, special, and vocational education; charter schools; and state-run education programs (such as special education centers or education programs for incarcerated youth). While the tables in this report include data for all NPEFS respondents, the discussion in the text is limited to the 50 states and the District of Columbia. CCD NPEFS is a state-level universe collection of public elementary and secondary education finance data reported annually by SEAs in each of the 50 states, the District of Columbia, and the five U.S. Island Areas of American Samoa, Guam, the Commonwealth of...
